

Monthly Contractor Feed
(STARS to Legacy)

STARS Feed				Legacy Feed			Comment	Additional Comment
Field	Field Type	Format	Length	Field	Format	Length		
Fund Code	AFF	Alpha-Num	5	Fund-Type	X	2	Footnote (1)	Replaces: Legacy Fund Type. (STARS Fund Code 10000=89X0240, Fund Type TC)
Allottee	AFF	Alpha-Num	2	Office-Code	X	2	Footnote (1)	Replaces: Legacy allotment symbol (1 st two positions). (STARS Allottee 01 = Albuquerque (AL))
Reporting Entity	AFF	Alpha-Num	6	Rptg-Unit / Site-Code / Cost-Center/ Fin-Plan-Symbol	X	2 / 1 / 1 / 4	Footnote (1)	Replaces: Legacy Field Office, Site Code, Reporting Unit, Local Organization, Cost Center (as used to further breakdown the organization) and integrated contractor information. (STARS Reporting Entity 00001 = Albuquerque, Sandia National Labs (ALH))
SGL	AFF	Alpha-Num	8	Account-Code / Summ-Class	X	6 / 2	Footnote (4)	Replaces: Legacy Balance Sheet Codes (BSC) and Summary Class Code (SCC). (STARS SGL 1310D100 = AR Direct Other Federal Agencies (1412))
Object Class	AFF	Alpha-Num	5	Obj-Class / Cost-Center / Budget-Ref-Num	X	4 / 4 / 15	Footnote (1)	Replaces: Legacy Object Class, Cost Center (when used to subdivide object class information), and Budget Reference Number prefixes (i.e., EQU, PRN, GPP). No additional object class detail will be required. (STARS Object Class 25200 = Other Contractual Services (252))
Program	AFF	Alpha-Num	7	BNR-Any-Level / Budget-Ref-Num	X	9 / 15	Footnote (1)	Replaces: Legacy B&R code representing Program, Sub-Program, Category, Task, and Sub-Task. It also incorporates legacy Project Baseline Summary (PBS), line-item construction (39 B&R), and Major Items of Equipment (MIE) information. (STARS Program 0029100 = DP0702000)
Project	AFF	Alpha-Num	7	Program-Task-Num	X	15	Footnote (1)	Replaces: Legacy Program Task numbers (which are Activity Data Sheets (ADS), and Technical Task Plans (TTP)), and allows for new project requirements such as Field Work Proposal (FWP), Nuclear Energy Research Initiative (NERI), and Annual Operating Plan (AOP) codes. (STARS Project 0011011 = ADSOR02MW11)
WFO	AFF	Alpha-Num	7	Order-Num	X	20	Footnote (1)	Replaces: Legacy Reimbursable Work Order and Inter/Intra Work Order numbers. (STARS WFO 3200000 = Reimbursable Order # 189A91342)
Local Use	AFF	Alpha-Num	7	Cost-Center / Local-Proj / Supp-Data/Budget-Ref-Num	X	4 / 4 / 15 / 15	Footnote (1)	In the past, cost center has been used to represent object class, organization, or another locally specific designation. These should now reside in one of three AFF segments; Reporting Entity, Object Class or Local Use. Use of these options should be designated by the field office. Replaces: Legacy site-specific Project, B&R codes, Budget Reference Number, and Cost Center (when used to break down project/program activity) information. (STARS Local Use 5011000 = GPP, GPD10100305)
Fiscal-Month		Alpha-Num	2	Fiscal-Month	X	2	Footnote (2)	
Fiscal-YR		Alpha-Num	4	Fiscal-YR	X	4	Footnote (2)	
CID	GL Line DFF	Alpha-Num	7	CID	X	7	Footnote (2)	
OPI	GL Line DFF	Alpha-Num	4	OPI	X	4	Footnote (2)	
Asset Status	GL Line DFF	Alpha-Num	2	GL-Status	X	2	Footnote (2)	
Asset Type	GL Line DFF	Alpha-Num	3	Asset-Type	X	6		First three characters of legacy Asset Type value
Amt-CR-DR		S9(12)V99	14	Amt-CR-DR	S9(12)V99	14	Footnote (2)	
Environmental Liability Type	GL Line DFF	Alpha-Num	3	Source-Doc			Footnote (2)	The only source doc data that will continue to be collected from the Integrated Contractors will be Environmental Liability Types
				Trans-Class-Code	X	2	Footnote (3)	
				ALC-Number	X	8	Footnote (3)	

Monthly Contractor Feed
(STARS to Legacy)

	Asst-Secretary	X	2	Footnote (3)
	Country-Code	X	2	Footnote (3)
	Corr-Code	X	1	Footnote (3)
	Edit-Flag	X	1	Footnote (3)

Footnote (1) - Doe will provide legacy to STARS value cross-reference tables

Footnote (2) - Provide current legacy values

Footnote (3) - No longer needed

Footnote (4) - DOE will provide further SGL guidance under separate correspondence

AFF Note - The STARS AFF also includes the **Appropriation Year** and **Future** segments. These segments will not be required to be included in the IC Feed.

Note - Those lines shaded in yellow are current IC Feed lines requiring change. Either the element is no longer needed or the value to be sent is changing. **These are the lines that we are asking for an estimate of the cost for the change.**
